

**VHTA has it . . . ServSafe® certification
in ONE DAY!!!**

Training and Certification Made Easy

VHTA provides food safety training courses and certification exams designed to help you comply with local food safety and health regulations.

Developed by the National Restaurant Association Educational Foundation, the ServSafe® course and exam are recognized and accepted for food safety licensing/registration by more federal, state, and local jurisdictions in the United States than any other food safety program. The ServSafe® food safety program provides high-quality food safety education and training materials for the restaurant and foodservice industry.

Over 2 million professionals have been certified through the ServSafe® course. There are many food safety courses that you can take, but this is the one you **must** take. You cannot afford to pass up this opportunity to become professionally certified.

Food Safety: More than Important – It's a Requirement

The ServSafe® certification course is for food and beverage managers, supervisors, inspectors, federal, state and local public health officials, chefs and anyone who requires food safety training. Purchase price of training materials, exam, and lunch is included in registration fee.
